

ACI CERTIFICATION
FLATWORK TECHNICIAN &
FLATWORK FINISHER

ONE DAY TEST & REVIEW CLASS
SATURDAY, FEBRUARY 27, 2010

Certification as an ACI certified Flatwork Finisher or Flatwork Finishing Technician is a professional designation gaining recognition throughout the United States. The program is useful for experienced and apprentice concrete finishers to sharpen and round out their knowledge of concrete finishing. The class session is followed by a written examination.

Applicants having a minimum of 4,500 hours of concrete finishing experience (2+ years), who pass the test will be Certified Concrete Flatwork Finishers. Applicants who pass the test, but do not have the required work experience, will be Certified Concrete Flatwork Technicians.

Please be aware, owners, designers and project specifications are beginning to require this certification for concrete professionals working on their projects. This is a growing trend that we expect will increase in the future.

Our Saturday, February 27, 2010 class schedule is as follows:	
8:00 am - 9:00 am	Concrete Basics, Materials and Proportioning Quality Control Testing
9:00 am - 10:15 am	Placing and Finishing Tools Placing, Finishing and Jointing
