A **Concrete Field Testing Technician—Grade I** is an individual who has demonstrated the knowledge and ability to properly perform and record the results of seven basic field tests on freshly mixed concrete.

This program has been developed for certifying individuals who will then be competent to conduct field tests on fresh concrete. The program covers details of ASTM procedures and consists of a written and performance examination. The performance examination requires the candidate to demonstrate his/her ability to correctly perform and record the results of field tests on fresh concrete.
